JustinJ Industries

JustinJ Industries LLC · Boston-based

Capability statement

Government buyers & prime contractors

WEBSITES • MEASUREMENT • ADVERTISING • DIGITAL SUPPORT

JustinJ Industries is a Boston-based studio for websites, advertising, measurement and practical digital support. We help teams scope useful changes, verify the work and maintain it after handoff.

CORE SERVICES AND OUTPUTS

Websites

Website design, development and redesign; WordPress/Craft CMS, technical SEO and accessibility remediation.

Outputs: Page templates, content patterns, metadata and editor notes.

Measurement

GA4/GTM; Adobe Analytics and Tags (Adobe Launch) specifications and QA.

Outputs: Measurement plans, data-layer definitions, consent-aware QA, Analysis Workspace reports and Data Studio dashboards.

Advertising

Paid search, display and paid social. Google Ads, Microsoft Advertising (Bing Ads) and Meta Ads.

Outputs: Channel plans, landing-page checks, optimization notes and reporting definitions.

Digital support

Website/CMS maintenance, implementation reviews and practical technical documentation.

Outputs: Scoped fixes, change logs, test notes and maintenance handoffs.

CONNECTED DELIVERY. DOCUMENTED CHECKS.

- Website, advertising and measurement decisions reviewed together.
- WCAG-informed keyboard, semantic HTML and automated accessibility checks.
- Privacy-aware implementation, clear QA findings and practical handoffs.

SELECTED WORK AND DEMONSTRATION

PUBLISHED NONPROFIT WEBSITE CONTRIBUTION

UAid Direct

Development contributions to a regional WordPress multisite: custom homepage/news templates, 11 reusable ACF layout choices, region-aware navigation and English/Ukrainian Help content.

Website work Published site

SYNTHETIC PORTFOLIO DEMONSTRATION

Northside

Separate service-site and reporting demonstrations: editable content, a non-sending inquiry flow and an eight-page dashboard with illustrative sample data. The website, inquiry and reporting examples are separate.
